

Tackling crime and antisocial behaviour

Protecting vulnerable people

Enabling fair treatment

Our strategic vision:

1.1 In delivering the Police and Crime Plan we will help to keep people in South Yorkshire safe by fighting crime, tackling anti-social behaviour and protecting vulnerable people. We are committed to improving the way we police so that our communities can have trust and confidence in us.

What we have to deliver:

2.1 Deliver neighbourhood policing and protect the vulnerable:

Create close community links and engage with people in neighbourhoods in order to understand their policing needs and requirements with a focus on empowering communities, intervening early, valuing diversity and protecting vulnerable people.

2.2 Proactively understand and prevent crime and harm:

Understand our current and future demand, prioritise based on evidence, solve problems, identify prolific offenders and people at most risk of harm, identify emerging crimes, and support national requirements.

2.3 Tackle crime and antisocial behaviour:

Respond to and solve victim-based crime, bring offenders to justice and proactively manage offender cohorts with a focus on tackling child sexual exploitation, domestic abuse and organised criminality.

The foundations of our success:

3.1 Collaborate in effective partnerships:

Review and reconstruct our partnership structure, develop 2-way partnerships with clear strategic intents, defined ownership, good communication and responsibilities that deliver results in an integrated way.

3.2 Deliver excellent victim-led service:

Ensure victims are at the centre of our service. We treat victims, witnesses and customers with respect, empathy, and compassion in our service delivery.

3.3 Communicate and engage effectively:

Engage and communicate internally and externally (with the public, the media and our partners) in a proactive, confident and positive manner.

3.4 Use technology and data effectively:

Update our IT systems and skills, improve the use of data and analytics, ensure better integration and access to information.

3.5 Restructure the organisation and match resources with demand:

Move to a local policing model with the right people, with the right skills, in the right roles, with the right equipment and right estate to deliver policing in line with our current and future demand.

3.6 Manage our talent:

Anticipate and build capacity, ensure continuous professional and personal learning and development in line with organisational needs, and focus on succession planning and diversity.

3.7 Value our people:

Focus on people's health and wellbeing, foster a supportive and positive working environment in which people feel valued, trusted, empowered and proud to work here, build confidence by celebrating success and valuing individual contributions.

3.8 Create strong and stable leadership:

Ensure effective, optimistic and supportive leadership that is consistent across all levels of the organisation.

Efficiency and productivity:

4.1 Improve the effectiveness and efficiency of our internal processes:

Review and continuously improve our key processes, eliminate internal inefficiencies and failure demand, and implement best practices.

4.2 Use our resources well:

Make sure our people and their time are used most effectively, and ensure our estate and equipment are fit for purpose and used both sustainably and more effectively.

4.3 Manage our finances:

Develop strong financial management and create and implement a sustainable financial plan that aligns our resources with our strategic and operational priorities.

4.4 Governance and compliance:

Ensure we have good governance in place and that we comply with regulations and professional standards.
